SUMMARY

As an Engineering CSE student specializing in Data Science, I am proficient in programming languages such as Python and R, as well as data analysis tools like SQL, Tableau, and Excel.

I have experience in data visualization techniques and have completed relevant coursework and projects. I am eager to utilize my skills to contribute to a data-driven organization.

TECHNICAL SKILLS

Programming

languages: python,

Java, C++, C Programming

Web technologies:

HTML, CSS

Data Management:

Data visualization,

tableau, excel.

Platforms:

Visual studio, code block, tableau, RStudio, excel.

CERTIFICATIONS

- data structure algorithm self-paced from geeks for geeks
-|2022|
- r programming MOOC's course from Coursera
-|2023|
- Cloud computing on AWS, from Udemy
-|2023|

NON-TECHNICAL ACHIEVEMENTS

- Gained certificate from Coursera on the course The truth about dogs and cats.
- Open elective course in tourism from lovely professional university

PROJECTS

- Game development Jun '22

Domain: DSA | programming language: python

Build a basic tic tac toe game for problem solving statistical thinking etc.

- Tableau dashboard march '23

Domain: data management | platform: tableau desktop

Created a dashboard to organize data.

Cleaned the data and displayed it accordingly using visualization skills User friendly dashboard to access details based on commands.

EXTRA CURRICULAR ACTIVITIES

Actively participated in NSS activities for 2 years in higher secondary

EDUCATION

B.Tech. in Computer Science Apr '20-24

Lovely Professional University | Phagwara

High school

LOURDH MATHA high school | Wayanad

Jun'16- mar '18

GPA -8.8

Higher Secondary

MGM higher secondary school

|Calicut

GPA-8.2

Jun '19 - Mar '20

SOFT SKILLS

- Leadership quality
- Adaptability
- Critical thinking
- Time management
- Teamwork
- Communication skills
